### STORM APPROACHING

The power was on and off intermittently today as the result of a heavy windstorm to the westward. Beyond Reno it assumed cyclonic proportions and the telegraph wires are down, the Bonanza's service being secured via Los Angeles. There are indications of either rain or snow, with probably much colder weather.

### BIRDS WILL BE BUSY

Tonopah aerie, No. 271, Fraternal Order of Eagles, will have big doings this evening. There will be election of officers and the business meeting will be followed by a social session.

A projecting lantern to enable a person to copy a picture by hand almost as accurately as by photography is a German invention.

### LITTLE JACK HALL CALLED BY DEATH

#### BELOVED CHILD FOLDS HIS HANDS AND PASSES TO ETERNAL REST

A telegram last evening was received by Al A. Frevert from San Diego, bearing the sad tidings of the death of Humphries John Hall, Jr., the eight year old son of Mr. and Mrs. H. J. Hall. The cause of the death was diphtheria. Receipt of this distressing tidings caused sorrow to prevail in many a household, as a large number of Tonopah families have accepted the hospitality of the Halls in southern California in their beautiful home there, while the boy was so well loved here in his infancy, he having resided in Tonopah until four years ago.

News of the death was a shock as well as a sorrow, as no one here had been informed of his illness, which was brief. Many telegrams of condolence have been sent to the bereaved parents from Tonopah, in their hour of deepest sorrow. The boy was aged eight years. He was born at San Jose, California, and was a bright and lovable lad. He was the hope and pride of his loving parents and beloved by his schoolmates in San Diego and by all who remember him in Tonopah. Mr. Frevert left this morning on the southbound train to attend the funeral and extend his sympathies to the bereaved parents. Many friends of the parents in Tonopah desire through the Bonanza to extend their condolences.

### WHERE ANTIMONY IS FOUND IN NEVADA

#### VALUABLE INFORMATION GIVEN BONANZA BY UNIVERSITY OF NEVADA

Antimony in the form of stibnite, the sulphide, occurs widely distributed in the state of Nevada. Stibnite is the principle ore of antimony containing when pure 71.4 per cent of the metal. It is a soft, lead-gray, metallic mineral having a high lustre, and usually occurring in aggregates of bladed crystals and in radiating groups, while more rarely it is found in massive or granular form. Near the surface, the Nevada antimony deposits contain covellite, an oxide of antimony, which has been derived from stibnite by oxidation, and appears as a pale yellow earthy mineral. Other minerals containing antimony which occur in Nevada are pyrrhotite, polybasite, and stephanite, which are of more value for their silver than for their antimony; jamesonite and its derivative bindheimite, which are not valuable as antimony ores because of their lead content; farnatite, a variety of which occurs in the rich gold ores of Goldfield, and is called goldfieldite, and tetrahedrite, also a copper antimony sulphide frequently of value for its gold and silver output. None of these minerals are of value as ores of antimony.

The known occurrences of stibnite in Nevada are as follows: Churchill county, Barnes district and Boyer; Elko county, Columbia and Good Hope; Eureka county, Stafford district; Humboldt county, Antelope Springs, Bloody Canyon, Jackson Canyon, Juniper Mountain, Lovelock, Red Butte, Rosebud district, Seven Troughs district, Star Canyon and Winnemucca; Lander county, Battle Mountain and Big Creek Canyon; Mineral county, Aurora; Nye county, Hot Creek district.

At Columbia, in Elko county, and in the Stafford district in Eureka county, the stibnite was mined for its silver content, while at the other localities named, it has been exploited for antimony. Before the outbreak of the great war, all the Nevada antimony deposits were shut down on account of the low price of antimony, which was only 8 1/2 cents per pound. Since then the price has risen to 37 cents, and a number of the properties are now working. Among these may be mentioned Antelope Springs, in Humboldt county, where the ore is said to be chiefly a high grade oxide, but as yet a depth of only 30 or 40 feet has been reached. In the Red Butte district, mining operations were begun last summer, and as in the preceding case, the ore was mainly high grade oxide. Here however, stibnite began to appear at a depth of a few feet. The Sutherland mine near Lovelock was worked last summer by the Magnolia Metals company of New York, which also operated the prospect near Red Butte. The deposits at Fernie are said to be working now, and there are doubtless a number of deposits in the state which are working at the present time. Any one interested in an antimony deposit should attempt to get out as much as possible in as short time as possible, because it is practically certain that as soon as the war is over, the price in antimony will again drop back to the normal level of 8 1/2 cents. It is probable that many of the deposits mentioned in the above

### GRANDMA COMPANY IS PLANNING RESUMPTION

#### CAPITALIZATION WILL BE INCREASED AND CORPORATION PLACED ON ASSESSMENT BASIS

(Special to the Bonanza.)

GOLDFIELD, Nevada, Dec. 2.—The Grandma Mining company is well on the road to reorganization and resumption. The new board of directors has shaped the plan for submission to stockholders at a special meeting called for December 29th, when it is proposed to increase the capital from \$1,500,000 to \$2,500,000 and place the company on an assessable basis. The reason for this increase is the necessity for providing working capital with the intention of absorbing a claim lying directly in the strike of the ore from Kewanas. The name of the claim has not been mentioned but President Sprague, of the Grandma, says there will be no difficulty on that score as arrangements have been practically settled to the mutual satisfaction of all interests. The directors have had several propositions under advisement but they decided on accepting the one that appealed to them as the one promising extension of known ore bodies.

Stock in the new Grandma company will be exchanged share for share. By the first of the year Grandma will be in full swing. Work will be conducted from an old shaft which is down 70 feet and a complete equipment will be installed with the intention of sinking to the shale-latte contact. Lateral developments to open the Spearhead vein apexing on the Grandma will be started at a depth of 250 or 300 feet where commercial ore is confidently looked for. The new company will own 40 acres.

### CLASS CHAMPIONSHIP BASKETBALL GAME

#### SENIOR VICTORIOUS BY THE SCORE OF 21 TO 11 IN CONTEST

On Thursday, December 2, the seniors having defeated the sophomores and the juniors having defeated the freshman team in basketball, the two winning teams played for championship of the school. The teams were well matched and the game proved to be a very fast one. Much credit is due Gertrude Ripplingham, the star forward of the senior team, for her many long distance shots. The game was a hard one, excellent playing being displayed by the players of both the junior and senior teams. In the end the seniors were victorious over the juniors, the score being 21 to 11.

Seniors	Juniors
Fannie Holmes	Ella Perry
Gertrude Ripplingham	Ethel Farrel
Centers	
Lauretta Walsh	Clare Laurence
Addie Murphy	Marion Lacey
Guards	
Helen Mitchell	Gracella Rountree
May Kimball	Lavina Shields

#### Advertise in the Bonanza

list, and not in operation at the present time, could be made to produce antimony at a profit with the present price of the metal, and it is to be hoped that their owners will take advantage of the opportunity.

### TO FORM ALUMNI ASSOCIATION HERE

#### GRADUATES OF UNIVERSITY OF NEVADA WILL HAVE ORGANIZATION HERE

University of Nevada alumni now residents in Tonopah are taking active steps toward the formation of an association whose purpose will be the upbuilding of the university, and a more intelligent use of its advantages by those not able to attend. President Hendrick during his visit to the institute urged its formation immediately and promised a group of prominent alumni and professors at the first meeting to assure the proper spirit and inspiration from the very beginning.

It is planned to inaugurate the University of Nevada alumni association of Tonopah some evening next week, and to dispose of necessary business and university and normal alumni, and all former students are to meet at the high school assembly room, Saturday evening at 8 o'clock. A complete list of eligible persons cannot be prepared, and this is to serve as an urgent request that all attend. Jay Carpenter, Walter W. Anderson, Geo. E. Anderson, Ellisworth Bennett and Tom Walker, are the self appointed committee in charge, and particulars may be obtained from them.

The party to assist in the organization will probably include the following: Pres. A. W. Hendrick, Prof. Jas. G. Shrugham, Dr. F. C. Lincoln and Gov. E. D. Boyle.

### GREAT IMPROVEMENT IN THE CASH BOY

#### FOUR FEET OF MARCHANTABLE ORE SHOWS ON THE DRIFT ON 1450 LEVEL

E. H. Meade, general manager of the Cash Boy, feels very elated, as is pardonable, over the showing that is being made in the northwest drift on the 1450 level. His samples last night showed four feet running from \$13 to \$49, the best showing yet made by the property. The west drift from the south crosscut also shows improvement.

### EACH CONTESTANT IN THE SIX FIGURES

#### CONTEST FOR VALUABLE PRIZE IS GROWING MORE EXCITING

Both Miss Davis and Miss Malone are now in the hundred thousand class in the contest that their friends are conducting for the prize of a \$1,000 stock certificate in the Nevada Film company, Inc., of Tonopah and the honor of being the first movie star of the company. The contestants are closer together this morning than ever before. Following was their standing at the morning count: Miss Isabel Davis, 149,800. Miss Eleanor Malone, 106,650.

CLYDE A. HELLER, president of the Tonopah Belmont Development company and the Jim Butler Mining company, was an arrival this morning from Philadelphia.

### PERSONAL

H. B. SELLERS, of San Francisco, is stopping at the Mizpah. ROY DAVENPORT was a passenger for Goldfield this morning.

LOUIS K. KOONTZ, a mining man of Goldfield, had business here today. C. F. EICK leaves tomorrow morning to visit his family in San Diego. He will be away about six weeks.

REV. S. H. JONES, Presbyterian missionary for this district, arrived this morning from San Bernardino.

THOS. DRON, wife and child, who had been visiting in Tonopah for the past week, returned to their Manhattan home today.

NICK ABLEMAN, James McKay, W. E. Marsh, Ed Uren and H. C. Stimler were visitors to Goldfield by auto yesterday.

MORRIS ABRAHAMSON, of the Morris Abrahamson Cigar company of New York, is here interviewing his customers.

F. A. MEADE and wife, of Goldfield, spent yesterday afternoon in Tonopah, visiting Mr. Meade's father, Eddie Meade, the general manager of the Cash Boy.

GEORGE H. GARRY, consulting engineer for the Jim Butler Mining company and the Tonopah Belmont Development company, is here from New York.

A. W. BRIGGS, meter man for the Nevada California Power company, has accepted a position in the meter department of the company at Riverside. He left for the south yesterday by Desert auto stage for Goldfield.

### WILL CREMATE OVER 4000 COYOTE AND WILDCAT SCALPS

This is the time of the year when the scalps of all noxious animals are being turned into the offices of the different counties to secure the bounties paid by the state and up to the present time Elko has over 4,000 scalps lying in the basement of the court house waiting to be burned, says the Free Press. The law directs that the officials must destroy the scalps by burning and since the installation of the oil burners in the court house furnace there has been no way of burning the scalps and they have accumulated. The bulk of the scalps are coyote, with a few wildcat. As there is still over a month before the commissioner began payment on scalp bounties it is believed that several thousand more will be added to this pile.

### DUST NOT ALLAYED

The ears of the county commissioners must have tingled today for the criticisms made because of their failing to sprinkle the streets, when the storm was forecasted and for hours clouds of dust swirled down the streets, filling the eyes of pedestrians, injuring their clothing and doing damage to the stocks of goods in the business houses.

### TAXES COMING IN

County Treasurer Franklin reports that tax money is being paid in rapidly. The large corporations have not yet settled, for it is their custom to wait until the last day, in order to have the use of their money as long as possible. There are indications that the delinquency list will be short.

### ARGUED AND SUBMITTED

The district court was engaged last evening in hearing argument on a motion to strike out cost bill in the case of Rudolph Wurlitzer versus Kelly. It was submitted to Judge Averill.

### AMUSEMENTS

#### BUTLER THEATER

A story of striking power, "Sin," which was produced by the William Fox motion picture corporation. The famous French actress, Theda Bara, the vampire woman, is starred, in an unusually powerful and convincing work abounding in strong dramatic climaxes, growing out of the clash of elemental human passions. Theda Bara, her hair is like the serpent locks of Medusa, her eyes the cruel cunning of Lucretia Borgia, till now held up as the world's wickedest woman, her mouth is the mouth of the sinister, scheming Delilah, and her hands are those of the blood bathing Elizabeth Bathory, who slaughtered young girls that she might bathe in their life blood and so retain her beauty. Herein, it appears to us, lies the justification for Theda Bara's acting. It has all the dramatic power of the old Greek tragedy. It impresses more than all sermons ever preached, upon the mind that follows in the wake of evil-doer. The acting of Theda Bara is preeminently moral.

This feature, together with a good comedy, will be seen at the popular play house tonight. Don't forget to get your coupons.

#### COMMITTEE MEETING

The Christmas tree and relief combined committee will meet Sunday afternoon at 2 o'clock in the club room of the Mizpah hotel. It is imperative that all members be present. Any others interested in the work are also invited. As the time for the Christmas tree is rapidly approaching, there is much important work to be done Sunday.

#### SHIPMENTS OF CATTLE

The Miller & Lux company recently shipped out of the Humboldt valley 40 carloads of cattle for the coast. The lot reached the Sparks yards recently and was fed and sent on. The railroads are, according to the officials, handling more freight and livestock this fall than at any time in the history of the roads. An additional force of men has been employed at the Sparks yards to keep the rolling stock in repair.

Sign in a Tremont street store: "Empty boxes—suitable for Christmas gifts."

A GENERAL BANKING BUSINESS TRANSACTED  
OUT-OF-TOWN ACCOUNTS SOLICITED

It is said that over 10,000,000 women in this country shop daily, 90 per cent of whom are influenced through advertising to buy a certain article or go to a certain store; hence when a small dealer tells you that advertising doesn't pay, you will find, nine times out of ten, that not only his advertising but his store methods are faulty. He is, very likely, a spasmodic advertiser. He is operating without any particular plan or policy. In short, he is a hot and cold proposition, pretty much like the old rooster in the snow, standing first on one foot, then on the other, trying to avoid getting cold feet, where if he used both feet at the same time, he would get to some place where there wasn't any snow. The advertiser who uses the Daily Bonanza
